

Staffe angolari FAF e piane FFF

APPLICAZIONI

- Elementi di connessione per l'assemblaggio di semplici strutture o telai con binari FUS.

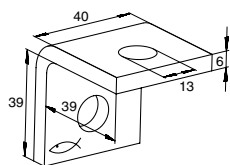

VANTAGGI/BENEFICI

- I fori negli elementi di connessione li rendono compatibili con il dado FCN Clix P.

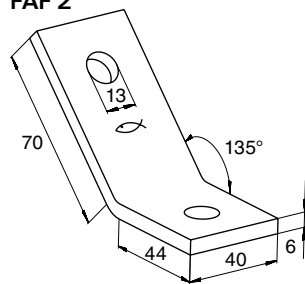

PROPRIETÀ

- Materiale:** Acciaio S235 JR (materiale n° 10037) secondo DIN EN 10025
- Zincatura:** Zincatura a freddo, min 5 µm
